Each facility subject to Title V permitting is required to submit an Annual Emissions Summary postmarked by March 31 of each year. The summary shall include the air emissions from the previous calendar year. The following forms are required: - Form 1.0 Facility Information (check the Annual Fee Submission box) - Form 4.0 Emission Unit Actual Operations & Emissions for EACH emission unit - Form 5.0 Title V Annual Emissions Summary/Fee - Part 3 Application Certification (sign under "Certification of Truth, Accuracy & Completeness") Check (b) Annual Fee Payment

<u>Instructions</u>: Use the table below to report actual emissions of HAPs and additional regulated air pollutants emitted. Duplicate this page, as needed.

- Enter the pollutant name and CAS No. for each HAP and additional regulated air pollutant emitted that is not reported on page 1 of this form.
- <u>Total Emissions (tons)</u>: Enter the total plant-wide emissions for each pollutant listed. Include fugitive emissions, but do not include emissions from insignificant activities (567 IAC 22.103). Totals should come directly from the values reported on Form 4.0. Report totals to the nearest hundredth of a ton. Totals less than 0.005 tons do not need to be reported.
- <u>Emissions Subject to Fees (tons)</u>: Enter the total plant-wide emissions for each pollutant subject to fees. Ensure that you do not double-count emissions, as noted below.
- <u>Double-counting</u>: A majority of the hazardous air pollutants (HAPs) are also considered volatile organic compounds (VOCs) or particulate matter. Form RE-01, Tables A-1 & A-2, lists all of the HAPs and whether or not each is also considered a VOC or particulate matter. Facilities are not required to pay fees twice for the same emissions. If a HAP you reported below is also included in the VOC or PM-10 total reported on page 1 of this form, <u>DO NOT</u> include the value in the Emissions Subject to Fees column. Enter "0.00" instead.
- HAP and Additional Regulated Air Pollutant Fee Subtotal (tons): Add the values reported in the Emissions Subject to Fees column, and list the total here. Return to page 1 of this form, and enter the HAP and Additional Regulated Air Pollutant Fee Subtotal in the Emissions Fee Calculation table.
